

I receive K-Love radio on a LPFM station. I am writing to express the value to myself and community in hopes of maintaining the signal. KLove is a positive christian radio station that is safe for my whole family to listen to I never have to worry about content or under current that would bombard my children with subversive derogatory comments and programs. They provide scripture as the inspiration rather than self based marketing. Being a light in our crazy world helps me and members of our community to focus on love and kindness rather than violence and self indulgences. I financially support this station and would not listen to any alternatives you would provide.
